**WILL BE WORLD'S** LARGEST BRIDGE,

Hoboken and Manhattan to Be Connected by a Sixteen-Track Railroad Bridge.

REPUBLIC SPECIAL Chicago, May 12.—William J. Amend, counsel for the North River Bridge Company, to-day made the definite announce-ment that the Pennsylvania Railroad is bridge from Hoboken to Manhattan.

He said that contracts were now being negotiated between the bridge company and the railroad companies whose traffic will be accommodated by the bridge. As soon as this could be executed, he said, the work on the structure would be commenced.

It is estimated that the bridge can be completed within four years. The bridge is to be only for the transportation of pas-sengers, and the plan involves the erection of an enormous terminal, bounded by Sixth and Seventh avenues. Twenty-fourth and

Twenty-eighth streets.

The bridge will be the largest in the world. There will be sixteen tracks for railroad trains, and the strength of the structure will be such that they will be run at full speed. Above them will be trolley tracks, driveways, bike paths and footways. The estimated cost of the bridge, with its approaches and the passenger terminal, is \$50,000,000.

## OLD MAN LIVES BY EMBROIDERY WORK.

Educated for Priesthood, He Took Up the Needle in Imitation of Old-Time Monks.

John Kluser, an aged patient at the City Hospital, has earned his livelihood for the known as the Missouri Society, will be last twenty years by doing fine embroidery work. He has been in the hospital for three weeks, and in this interval has busied him self in designing and working out several elaborate embroideries. The doctors at the institution have all seen and admired his work, but the corps of nurses, many of whom are skilled with a needle, have been especially attracted by Kluser's embroidery. They say that no woman could exceed his

He then entered a theological college, and, after four years' work, he was ready to be ordsined. At this stage in his career he was, he says, wrongly accused of having violated the rules which bind aspirants to the priest-bood. He denied the charge, but the Archbishop of his diocese refused to ordain him. He left his native land, came to the United States, and has since never communicated with friends or relatives in the old country.

## CAPE GIRARDEAU MAN MAY KNOW ST. LOUIS SUICIDE.

J. W. TWEDDLE SAYS DESCRIPTION CORRESPONDS WITH THAT OF DOCTOR T. J. M'GINNIS OF KANSAS, WHO HAS BEEN DESPONDENT OF LATE.

The body of the man who killed himself in a saloon at No. 812 North Third street last Thursday, which has twice been mistakenly identified, is now believed by John W. Tweddle of Cape Girardeau, Mo., to be that of his brother-in-iaw, Doctor T. J. McGinnis of Iola, Kas.

Joseph Pace of No. 650 Odell avenue first claimed that the body was that of Robert Burns, an aeronaut. Mr. Burns showed up alive, however, and declared that it was a case of mistaken identity on the part of Mr. Pace.

Mrs. Cora Eickerman of No. 7723 Olive street announced that she was almost certain that the body was that of a stockman named Adams, living at Newell Post Office, near Pocahontas, Mo. Advices from the

Immediately after leaving Europe, Kluser secured a position as instructor and for five years lived comfortably.

But the longing to do work in service of the church returned, and he moved from New York, where he was living in 1890, to Waukesha, Wis., where he obtained a position in the household of a priest and embroidered church vestments and church decorations. He moved thence to a town in Indiana, and thence, three years ago, to St. Louis.

Civil War.

Civil War.

A. A. Prail caused much amusement yesterday afternoon at the meeting of the Commodore Foote Naval Veterans' Association in room No. 3). Laclede building, by reading a paper reciting his experience with a bog while doing picket duty on the banks of the Tennessee River one dark night in 1982.

Prail was attached to a fleet of transports conveying supplies to General Rosecrans at Nashville. It was customary to anchor the boats at night for fear of an attack. Prail and several other marines were placed on guard on shore.

In the night Prail heard a noise and observed an object approaching. Owing to the darkness he could not discern what the object was, and, as it continued to advance, he hailed it. The object did not stop and Prail hailed again. Still there was no reply. Prail called a third time and, getting no answer, fired. The next moment there was a rapid succession of grunts and an object disappeared down the river bank. Though Prail could not see it, he knew by the grunts that it was a hog. A few minutes later a detail was sent from the fleet to investigate the shooting. Prail explained to the officer in charge and was immediately ordered "below until he would be able to tell the difference between a hog and a Confederate soldier."

Committees were appointed at the meeting yesterday to visit the different cometeries and deposit the "Union Jack" in the form of a small naval flag on the graves of sallors who served in the Civil War.

SAID HE WAS ROBBED—John Boland, a traveling salesman, registered at the Terminal Hotel, was found bleeding from the nose on the sidewalk at the southwest corner of Nineteenth and Chestmit streets early yesterday morning. He said he had been assaulted and robbed of 120 by three or four men who had ejected him from a saloon. William Condon and John Williams, the proprietors of the saloon, were taken to the Central District Station, where they stated Boland ordered \$1\$ worth of drinks for two women and refused to pay. They said he was then put out on the sidewalk, but they denied he had been robbed.

DIED IN A SALOON—Henry Howard, 7 years old, with no settled place of abode died without medical attendance at 1 o'clock yesterday morning in Boyle & Housten's saloon at No. 34 North Sixth street, His body was conveyed to the morgus. ## TESTS SHOW STRONG INDICATIONS OF OIL.

Reports From Experts Give Much Encouragement to Owners of Wellsville Oil Prospects.

Wellsville, Mo., May 12.—Results of chem-ical enalyse and tests of the oil found in The spectacle of three sets of healthful, round-faced and strong-lunged triplets ranged side by side, and yelling lustily for first prize is one which may be witnessed at the Baby Show to be given in the west nave of the Exposition Building May 22 to 25, if a plan suggested by Mrs. Mary Calkins, president of the Golden Chain Humane Society, is carried out. The parents of the three particular infants which Mrs. Calkins has in mind, recently received a silver mug from Governor Stanley of Kansas as a reward for such a material increase in the population of that State. the vicinity of Wellsville have been most satisfactory. H. A. Bradford, president of the Western Union Oil Company, has received returns from the samples taken from the well on the premises of Mr. Davis, where the oil indications were first found. These samples were examined by St. Louis experts, and their report has strongly con-firmed the opinion that Mr. Bradford has held concerning the splendid character of the indications found here. Mr. Bradford states that the primary inward for such a material increase in the population of that State.

The St. Louis management of the Baby Show has made overtures to Kansas by writing a letter to Governor Stanley proposing that the prize Kansas triplets be sent to St. Louis. Governor Stanley has as yet made no reply. In her letter, Mrs. Caikins stated that Missouri had some triplets which fond parents claimed could not be excelled, and have expressed a desire to see the Kansas article compete with the Missouri product.

The Missouri and Kansas triplets will not be the only favorites, for nesotiations are pending which. If successful, will enter three Illinois triplets in the lists and they will be played as heavy favorites.

dications here are better than were found in the now famous Beaumont oil region. He is confident that development will uncover an oil basin in this vicinity from which an unlimited amount of fine illuminating oil will be taken.

Investigation shows that the contents of Mr. Davis well where the first indicators.

Investigation shows that the contents of Mr. Davis's well, where the first indications were found, now carry about 10 per cent of crude oil. A number of farmers in the vicinity of Wellsville have been compelled to abandon the use of their wells on account of the presence of oil.

Interest in the investigations that are being made shows no abatement. Leases are being made on the farms for miles around the town, and companies are being formed to carry on the work of prospecting. While the people are enthusiastic, they are not losing their heads, but are using every effort to have the prospecting work carried on in a thorough and systematic manner. Machinery for the Bradford wells has been ordered from St. Louis, and is expected to arrive here in a few days. Active work will then be pushed on the prospect located on the Davis property.

BRICKMAKERS' STRIKE SETTLED Employers Accede to Demand for Wage Increase.

The strike of the Cheltenham brickmakers in the works of the Missouri Fire Brick Company, the St. Louis Terra Cotta Company, and the Mitchell Clay Manufacturing Company has been settled, the employers acceding to the demands of the men. More than 600 workers who have been out for the past two weeks will go to work this morning, the common laborers receiving \$1.50 a day, instead of the former wage of \$1.35, and all skilled laborers have been advanced in per cent above their former pay. This agreement was reached Saturday.

The result was announced at the meeting of the Central Trades and Labor Union at Walhalla Hall yesterday afternoon, when those of the Cheltenham strikers who had not formerly been members of the central body were admitted. The workers of the Laclede Fire Brick Company, the Evens & Howard Company are still out, demanding what was conceded by the other employers.
